

Indicative rates

Effective 3rd February 2014 through 1st July 2014

All prices are indicative only. Prices represent policy year annual rates. Prices vary with age, citizenship, residence, product and benefit design. Contact us for a full quote.

To obtain an indicative price for your policy, please follow these three steps:

Step 1: Decide if you need cover inside the US. Pages 1 & 2 display indicative prices for Worldwide **excluding US** cover. Page 3 & 4 display indicative prices for Worldwide **including US** cover.

Step 2: Find the closest age table (20, 30, 40, 50, 60) and select your core plan: Silver, Gold or Platinum.

Step 3: Add your optional modules and select your optional deductible and cost share (available on International Medical Insurance and International Outpatient). Each table only displays the zero deductible/cost share option and the maximum deductible/cost share option to illustrate the price ranges available.

For more detail on each product, including the full range of deductibles/cost shares see our factsheet or sales brochure.

Worldwide *excluding* USA cover

Indicative rates for a US national travelling to The Netherlands. Prices are on an annual basis.

Terms of indicative prices - please read

Indicative prices quoted are for illustration purposes only. These should not and cannot be relied upon as a quote for a policy. All indicative quotes are based on a United States national living in The Netherlands. All policy applications will be subject to Full Medical Underwriting and your application may be declined or have exclusions applied (with the exception of Continuations or Switch applications which will carry an additional premium. Contact us for more information). Other deductibles and cost shares are available on the core International Medical Insurance plan and International Outpatient option, including having nil deductible or cost share, which could increase or decrease your premium accordingly.
