# The Bridge Plan Works Like This

The Bridge Plan is a major medical expense insurance plan intended for persons aged 60-95 who are awaiting acceptance as a participant in the U.S. Medicare System. Foreign Nationals are usually eligible to purchase Medicare Parts A & B five years after becoming U.S. Residents. While awaiting enrollment in Medicare, they may apply for coverage through The Bridge Plan. The Bridge Plan reimburses medically necessary expenses incurred.

## Deductible

All eligible expenses are subject to the deductible. Deductible options are \$1,000, \$1,500, \$2,500, \$5,000, or \$10,000 per policy period.

## Coinsurance

After the deductible, the plan pays 80% of the next \$10,000 of eligible medical expenses.

## Thereafter

Once the deductible and coinsurance have been satisfied, 100% of eligible expenses are paid on the basis of usual, customary and reasonable charges, up to the policy maximum benefit of:

- \$250,000 ages 60-74
- \$100,000 ages 75-79
- \$50,000 ages 80-89
- \$25,000 ages 90-95

## Policy Period

The Bridge Plan is a temporary plan and has a maximum policy period of 11 months. At the end of the 11 months, a non-US citizen may apply for a new term of insurance. US citizens are limited to a single policy period of up to 11 months.

## Part A: Hospitalization

**Hospitalization Benefits:** Covered expenses include semi-private room and board charges, general nursing, miscellaneous hospital services and supplies, drugs, x-rays, laboratory tests and operating rooms.

**Hospice Facilities Benefits:** Such costs are covered, including medically necessary out-patient treatment. A physician must certify the need of such care.

**Skilled Nursing Facility Benefits:** Such costs are covered following a necessary hospital confinement of three days or longer and begins within 30 days following the hospital confinement.

**Home Health Care Services Benefits:** Skilled care at home is covered if such care is deemed to be medically necessary.

## Part B: Physicians and Surgeons

**Physicians and Surgeons Benefits:** The costs of physicians and surgeons are covered on either an in-patient or out-patient basis. Supplies, therapy and ambulance services are covered if prescribed as medically necessary.

## Additional Information

- The insured may be treated by any doctor or at any hospital.
- Benefits paid are based on usual, customary and reasonable charges.
- The deductible and coinsurance are on a per policy period basis.
- The plan may include coverage for Part A, Part B or both.

# Who Needs The Bridge Plan

Senior aged people desire coverage under the Social Security Medicare program. There are some people who, either by residency status or other reasons, may not be currently eligible for Medicare. All permanent residents of the United States are eligible for Medicare at some point in time. There are three conditions for which The Bridge Plan plan is used as a substitute.

**Medicare Restriction #1:** Medicare will usually accept people who have been a permanent resident of the United States for at least five years. This does not require citizenship or any pre-payment into Social Security prior to eligibility. The only requirement is that they must pay a monthly premium to have both Part A and Part B.

**Solution:** The Bridge Plan is available to persons who have become permanent residents of the United States and who are within the five year waiting period for Medicare eligibility.

**Medicare Restriction #2:** Some people may be eligible for Medicare due to age and qualifications, but have failed to enroll. Enrollment is not automatic. Social Security does not remind people to enroll. If a person misses the enrollment period, that person must wait to enroll at a later date. This process may take as long as 18 months!

**Solution:** The Bridge Plan will cover that person with benefits similar to Medicare until the next enrollment opportunity.

**Medicare Restriction #3:** Some people, for various reasons, have only Part A or Part B. They may be able to acquire the additional part through Medicare, but at a later date.

**Solution:** The Bridge Plan may be sold with both Part A and Part B, just Part A, or just Part B.

## FAQ's

**Question #1:** If I have a claim under the first policy, will the condition be considered a pre-existing condition on the renewal? **Answer:** The condition will be considered a pre-existing condition on any new term of insurance.

**Question #2:** If I have a chronic pre-existing condition such as diabetes necessitating regular treatment, will the policy provide coverage for medical expenses related to diabetes? **Answer:** Each policy has an exclusion for pre-existing conditions which has a 12 month look back. Since the condition will always require medication and regular care, it will fall into the pre-existing condition definition.

**Question #3:** I had a heart attack five years ago, will this still be considered a pre-existing condition? **Answer:** Due to the cardiac event, underwriters will most likely place a permanent exclusion for the entire cardiovascular system including heart attack and stroke.

**Question #4:** How will my premiums be determined on the renewals? **Answer:** Premiums will adjust every new term of insurance by age and any other underwriting ratings at that time. Premiums typically follow the chart from the current brochure.

**Question #5:** Will my prescription medications be covered under this plan? **Answer:** Prescriptions will be covered during a hospitalization. Maintenance medication is typically covered by a Medicare supplement under Medicare Part D and is not covered under the Bridge Plan.

**Question #6:** Do I need to pay the premium when I apply for the coverage? **Answer:** No, the premium is not due until the coverage has been approved by underwriters. If the payment is set up to be automated on a monthly basis, the payment will be drafted the day of the month the coverage became effective.

**Question #7:** Is there a list of doctors that I am restricted to? **Answer:** No, with the Bridge Plan, you may see any doctor and go to any hospital. The policy does not require that the insured use a specific network of doctors or hospitals.
